PRINCIPAL WRITES

An investment in knowledge pays the best interest - Benjamin Franklin

The year 2020 has seen paradigm shift in the thought process and life style of all students. Entire year from 2020 to 2021 we have been teaching online. We all updated from chalk to digital mode now also in school we have silent corridors, playground and empty classrooms, probably they all say to each other "Miss you dear students".

Dr. Parul Kumar

Due to COVID-19 pandemic the school had to switch over its mode of teaching. We are grateful to all parents for their constant support. All the teachers had to burn their midnight oil to get prepared to take on a new mode. The parents act as the living proof for the saying 'Where there is will, there is way'.

Education is a powerful weapon to change the world. We believe in teaching students how to think instead of teaching them what to think. We also try to inculcate strong values in our students.

Education will be fruitful only if we give back to our community and our Nation. We do a few activities with students where they learn to work for the community.

I congratulate Mrs. Anuradha Mago, Headmistress, Primary wing, NSB and staff for commendable work they are doing. My appreciation to editorial team for their great work.

HEADMISTRESS WRITES

**"Children must be taught how to think, not what to think."
Margaret Mead**

Through this E-Newsletter, I would like to share our interesting and challenging journey of the second quarter of this academic year.

The hustle bustle which is associated with Primary school was evident in the online classes, activities, celebrations etc.

A plethora of activities were conducted for the students and teachers of Primary wing, with an aim of enriching the teaching learning process. It is indeed heart warming to note, the enthusiasm and support of all of you in being part of the various online celebrations. The collaborative efforts of students and their parents towards making videos of patriotic songs, as part of Independence Day celebration is especially praise worthy.

Patience and positive stroke go a long way in enabling the child to reach his potential and nurture him to bloom. We are committed towards striving for perfection in our endeavour for providing the best for our students.

Be Safe and Healthy

LEARNING CENTER

School life was one of the worst effected during this pandemic. The academic year has been one where the students and teachers both have shown immense creativity in the teaching learning process. Things were not easy at the Learning Center too. Despite all the odds, it has been a constant endeavor to utilize technology and aid the learning process without any ifs and buts. The team at the leaning center arranged for group activity sessions on an online platform, where children were encouraged to participate and they made beautiful clay models.

For the benefit of the parents and to help enhance the children's attention span and concentration, few OT exercises, which had easy to do OT related activities, made by Ms. Anupama, were shared with the parents, so that it could be practiced at home.

RETIREMENT NOTE

My Journey as a Teacher– Let the Good Times Roll

“It is not the destination where you end up but the mishaps and memories you create along the way!” - Penelope Riley

My journey in Navy Children School began in the year 1990 and I felt I was on top of the world as I started with my dream job. I really do not know whether I created memories or if I am taking memories along with me.

Each day I entered the class room, it was a learning experience for me too. I did not know how the 31 years rolled by because school was more than my home and as new students' and colleagues joined, they added to my fond memories. Every child with his/her childish innocence bundled with their smartness, created an everlasting bond between us. It's a proud moment when they come back after years and say I have taught them once upon a time and ask whether I can recognize them.

It was an era of chalk and duster teaching when I joined school. But things started changing slowly and teaching became more challenging as technology started to play a key role in teaching methodology. However, the number of training sessions organized by school made me more confident. From sitting up late nights to do school work to all the fun we had during school functions, everything added to my garland of memories which I carry with me.

NOW ITS TIME TO TAKE A BREAK AND SO WITH A HEAVY HEART I BID ADIEU TO YOU NCS VIZAG!!

MRS. D. RAJYA LAKSHMI

Team NCS bid farewell to **Mrs. Anitha Kumari**, and wished her good luck for her future endeavours.
